- Rabies vaccine
- Refill heartworm prevention

Rabies Vaccination Guidelines

Rabies vaccinations are available in both 1 year and 3 year durations. All pets must receive the 1 year vaccination as puppies/kittens, and again as 1 year old animals, and may begin receiving the 3 year Rabies vaccination at their 2 year old appointments.

Additionally, if a pet's vaccination history is unknown or undocumented, they must first receive the 1 year vaccination, followed by the 3 year vaccination the next year, regardless of pet age.

SPAY NEUTER GUIDELINES

We recommend spays/neuters starting at 6 months of age or older to ensure proper development of your pet.

Additionally, we recommend pre-anesthetic bloodwork to ensure your pet is safe to proceed with anesthesia and surgery.

During surgery, your pet will be monitored with full anesthetic monitoring equipment to ensure their utmost safety. Even though we offer half-price spay/neuter days, every pet is treated with full-price care and concern!

Prices below include the following: Pre-surgical exam, pre-anesthetic bloodwork, courtesy nail trim, anesthesia, surgery, post-anesthetic monitoring, post-surgical laser therapy for pain control and wound healing, as well as go-home pain medications.

If you would like to decline any of the above included services, please contact our office at 405-273-3700 for more information.

Half Price Packages	>1yr	1-6 yr	7+ yr
K9 0-30 lb	\$132	\$152	\$207
K9 31-60	\$140	\$160	\$215

K9 91+	\$159	\$179	\$234
Cats	\$120	\$140	\$195

*Rabies vaccination must be current or brought up to date at the time of surgery.

Dental/Oral Health Recommendations

We offer free dental exams to help you determine if your pet needs dental care. We search for things like tartar build up, gingivitis, diseased teeth and infection. Based off our findings, we can make recommendations and a treatment plan specialized for your pet.

Our basic dental package includes the following:

Pre-dental exam

Pre-anesthetic bloodwork

Full-mouth radiographs

IV Catheter, Anesthetic Fluids and Anesthetic Monitoring

General Anesthesia

Dental Procedure: Scale any plaque/tartar and manually inspect each tooth and the gum line

Extract any teeth that are diseased beyond potential for recovery

Polish teeth

Flouride treatment

Post-anesthetic monitoring

Prices for our basic dental packages:

During Dental Special Days	Pets 1-6 years old	Pets 7 years or older
Pets Under 50 lbs	\$237	\$257
Pets Over 50 lbs	\$257	\$277

*unless your pet presents with a dental emergency, we will schedule your appointment during a dental special day for the included \$20 savings. Dentals not on dental special days will be \$20 above this listed price.

Extractions, Antibiotics and Pain Medications are NOT included in the above pricing. Should your pet require these items, then we will provide you with a customized treatment plan specific to your pet.
